TRAKKA

trakkadu

trakkadu

The Trakka name is synonymous with innovation, quality and outstanding value as evidenced by the many industry awards the company has received. Since 1973 TRAKKA has transformed thousands of the iconic Volkswagen Transporter series into world-class campervans.

With decades of expertise this latest generation TRAKKADU has evolved into a versatile escape machine that will take you to work or out into the Australian wilderness.

Aerodynamic Elevating Roof Contemporary composite construction of the roof provides exceptional structural integrity, effective insulation and minimal additional weight. Designed with streamlined good looks, the TRAKKADU roof lifts easily on gas-filled struts to create a vast standing area inside. Step inside and feel the difference in space and light and note the neat fit of the PU-coated polyester sleeve. Large screened windows provide excellent ventilation and an integrated awning rolls out for added weather protection.

Unique Rear Seat This versatile seat, with 2 integrated seat belts, is mounted on rails so you can choose the best position for dining, traveling or carrying bulky items. The backrest is adjustable for passenger comfort and with one simple action the seat folds to a double bed. Boot storage and a drawer underneath are handy for extra gear.

Clever Electronic Control So that you're in command the TRAKKADU has a control panel monitoring house and vehicle battery condition, fresh and grey water tank levels, air temperature and component switching management. The house battery has an automatic charger and there are 12V and 240V outlets and energy saving LED lights.

Supreme Safety Your safety is of vital importance so the TRAKKADU has a long list of safety and security features including dual front airbags, ABS brakes, ESP and hill hold, Electronic Brakeforce Distribution, Antislip Regulation, cruise control, rain sensing wipers, auto sensing headlights and integrated fog lights with cornering function. TRAKKA ensure compliance with all Australian regulations and have full ADR certification.

Great Galley Brimming with ingenious features the TRAKKADU kitchen has the latest in efficient refrigeration, stainless steel sink with lid and a diesel-powered cooktop with an elegant ceramic surface. This cooker is very simple to use, easy to clean, safe and reduces the fuel sources required. Stylish roller doors and drawers feature in the ergonomically designed curved cabinets, built from a superior light-weight, HP laminated Euro-plywood. The freshwater and greywater tanks are housed safely within the TRAKKADU cabinets.

Dining with the best views.

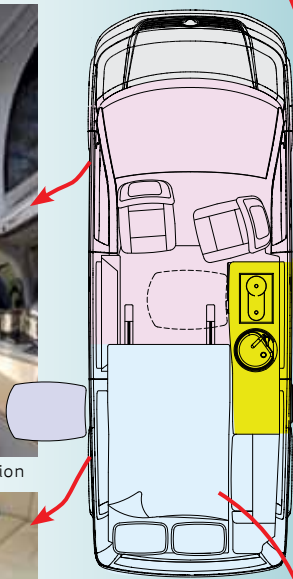

NIGHT

Plenty of rear storage

trakkabout australia

Comfort Unlimited For driving comfort equal to a prestige car, the TRAKKADU comes standard with air-conditioning, remote locking, electronic mirrors, a superior entertainment system and a multi-function steering wheel with trip computer. The front cab has numerous handy storage compartments, seats with armrests and lumbar support and an ergonomically designed dash that ensures controls are conveniently at hand.

Efficient Bi-TDI Engine Powering the TRAKKADU is the all new 2.0 litre 132kW bi-turbo diesel engine, which is not only highly responsive and exhilarating to drive, but also cleaner, quieter and incredibly efficient. The 7 speed Direct Shift Gearbox - DSG - dual clutch transmission uses advanced electronic technology to ensure minimal interruption to power, traction or acceleration and provide improved fuel consumption and pure driving pleasure.

Sure Footed 4MOTION For improved traction, safety and ability on and off-road a permanent all-wheel drive system is available. 4MOTION delivers power to all four wheels as required, ensuring superior grip and directional stability in poor surface conditions. A mechanical differential lock for the rear axle is included to enhance off-road ability even further. For even more impressive all-terrain performance a heavy duty suspension system can be fitted for additional ground clearance and exceptional capability.

Premium Extras to customize your TRAKKADU choose from leather seats, diesel room heating, hot water system and rear shower, roof bed, metallic paint, solar charging system, HD TV/DVD navigation system, alloy wheels and rear door annexe. TRAKKADU is tried, tested and trusted around Australia.
